Clutch, primary parts: clutch top plate bearing 21 mm

Description Clutch top plate bearing for Maico engines from 1983 until today.

Also used on most Zabel engines.

Please check bearing outside diameter is 21 mm!

We had to make a new special production, because this bearing was no longer as a standard to order.

This is why the price is so expensive, but the good news are Made in Germany and it helps to keep your Maico running!
